By WALLACE CARROLL  
British United Press. Exclusive Cable to The Edmonton Bulletin.  
**LONDON, Oct. 18.**—Adolf Hitler threatened to throw 160 army divisions (about 2,400,000 men) against the allies it was disclosed today in a final report by Sir Neville Henderson, British ambassador to Berlin, on developments leading up to the war.  
Henderson's final report was an extension of an earlier "Blue book" published by the government, relating the tense diplomatic exchanges including his conversations with Hitler and Marshal Hermann Goering just before Germany invaded Poland.  
The first report by the ambassador disclosed that Nazi leaders warned Great Britain that Soviet Russia might step in if war started, hinting that Moscow would aid Germany.  
The final report published today said Hitler asserted that soon as his armies had subdued Poland, the real strength of the Allied power in the Rhineland.  
Whether that threat was the basis of recent Allied operations in the Rhineland, the effect that Goering took a more moderate view of the situation than either Hitler or Nazi foreign minister Joachim von Ribbentrop. The ambassador said that Goering said Hitler asserted that soon as his armies had subdued Poland, the real strength of the Allied power in the Rhineland.

## Saar Drive Costs Nazis 5,000 Men

By JOHN MARTIN  
Associated Press Staff Writer  
**PARIS, Oct. 18.**—Sharp fighting accompanied a German offensive along the northern part of the western front since Monday already has cost the Nazis more than 5,000 casualties, French sources estimated today.  
The French said their own losses were slight as their troops fell back to previously prepared positions and met the advancing Germans with heavy blasts of artillery fire.  
Raiding parties from both sides fought a series of localized engagements during the night, the general staff reported in its morning communique. These actions were described as "ambushes and trench raids."  
The general staff also noted "intense movement" of troops and material by both highway and railway along the German line.  
Military commanders said the greatest activity during the night centered on a small wooded area.

## PRAIRIES WILL BE CENTRE OF AIR TRAINING

By GRANT DEXTER  
Edmonton Bulletin Ottawa Bureau  
**OTTAWA, Oct. 18.**—As plans for creating a large-scale air training base in Canada are rushed forward, several factors are becoming plain.  
The urgent need for quick action will compel the authorities to concentrate the great majority of the scheme in the prairie provinces.  
The facilities of the prairie provinces are being developed in a way that Airways will be used where this is possible without interfering with the operation of the service and without crippling its growth.  
The immediate need is to be seen in the air transport and geography of the prairie provinces. Only on the prairie can scores of airfields be created overnight. It is the natural country for the purpose of view.

## SOVIET RUSSIA SHIPPING GOLD INTO GERMANY

**LONDON, Oct. 18.**—A British government spokesman today gave official support to reports that Russia has been sending gold to Germany.  
Sir Alfred Knox, Conservative, asked in the House of Commons whether the government's attention had been drawn to the fact that an assignment made to a first contingent of 17½ tons of gold, had been transferred by the Soviet government to Germany.  
Richard Butler, under-secretary for foreign affairs, replied:  
"Yes sir. The foreign secretary has reason to believe that this report is not without foundation."

## Russ Recognize Finland's Independence, F.D.R. Is Told

**WASHINGTON, Oct. 18.**—President M. K. of the Soviet Union has informed President Roosevelt that present negotiations between the Soviet and Finnish governments are being conducted in conformity with principles which recognized the state of independence of Finland.  
The White House made public a dispatch to President Roosevelt from the Soviet president, replying to a note in which the President last Wednesday called attention to the "long-standing and deep friendship which exists between the United States and Finland."  
Mr. Roosevelt also expressed the "earnest hope that the Soviet Union will make no demands on Finland which are inconsistent with the maintenance and development of amicable and peaceful relations."  
In reply, Kalinin asserted that he considered it appropriate to remind Mr. Roosevelt that the state of independence of Finland, which was recognized by the United States on Dec. 31, 1916, and that the so-called "Treaty of Commerce" of October 14, 1920, between the Soviet Union and Finland, was a treaty of friendship and not a treaty of alliance.

## Quebec's Industry Hurt By Duplessis, Godbout Declares

**QUEBEC, Oct. 18.**—The leaders of Quebec's three major political parties swung their election campaigning into high gear again today—the day for the closing nominations—after a comparatively quiet night in which Premier Maurice Duplessis, United National government head, was idle.  
While the premier took the night off from speech-making, Liberal leader Adolphe Godbout spoke at Granby, an industrial town 50 miles southwest of Montreal and Paul Gouin, head of the Action Libérale Nationale, addressed gatherings at Montmagny and Miramichi.  
Mr. Godbout spoke on the eve of nomination day for Oct. 20 elections. He said the government has attempted to break down the labor union, he told the crowd.  
The premier at the same time has attempted industrial interests. He has utilized industry by intervening in its affairs with legislative control, he asserted.  
Industrial leaders do not know from day to day what regulations, he said.

## Saskatchewan Reaps Gigantic Grain Crop

**British United Press. Exclusive to The Edmonton Bulletin.**  
**REGINA, Sask., Oct. 18.**—This year's best harvest in a decade now reaped, Saskatchewan's farmers are indulging in one of the biggest buying sprees since 1930. For years thousands of them have been on relief. But 1939 brought the great majority of Saskatchewan's farm population, more than 50 per cent of the total, rehabilitation in cash and spirit.  
Prospects for the next year are bright. Saskatchewan is the main agricultural province of Canada and the importance of the province in the production of foods for the warring allies cannot be overestimated.  
Agricultural prices are on the rise. The 1939 wheat crop of an estimated 230,000,000 bushels, of which 200,000,000 will likely be sold into commercial channels, was the best yield the province has enjoyed since the bumper crop of 1929.  
It means an income of \$100,000,000, or approximately \$400,000 more than the small harvest of 1938 brought.  
It will, in 1939, it is estimated that other agricultural products such as coarse grain (livestock, dairy products, poultry products and wool, will net a total income of between \$50,000,000 and \$60,000,000.  
The total income for all agricultural products, including wheat, therefore approximately \$200,000,000.  
That's big money in a province in which the relief rolls have in some years counted hundreds of thousands and a section of which was once known as the "dust bowl of Canada."  
Proof of the big money that it is, is the spending spree. Farmers are buying their cash into buying everything from automobiles to radios, as well as back debts.  
Saskatchewan's cities haven't seen such a spending spree since the war.

Continued From Page 1

ways is concerned there have been repeated reports in the past few days to the effect that the air force would take over the prairie training area, and use it in the training scheme. This is untrue and was contradicted by the highest authority.

The facts as learned this morning are that Trans-Canada is to be the centre of the training scheme. The prairie training area will be used for the purpose of training in addition to the regular training in the prairie.

Thus it will be possible to let the air force use the civil airfield at Regina and Edmonton, for all purposes—military and advanced training. The facilities of these airfields are not being used by the T.C.A.

## Your Health — By Dr. Frank

Many a person who is conscious of an interference with health fails to investigate the possibility that faulty or defective vision may be the cause.

The mistake must be voided by anyone who is desirous of building strength, and it will frequently be necessary for those who are enervated and are past middle age, to undergo a period of rest and relief unnecessary effort in using the eyes. Even in the child, the presence of faulty vision is often the underlying factor which causes

of affairs that he takes no account for granted, failing to "take his medicine."

It is impossible to see clearly with any eye defect to be taxed, normal way, as he must be able to strain his eyes by straining the eyes, a strain upon a great deal of energy. At the same time, if the eyes are strained, they get more out of life than they need, and the eyes help they require.

Yrstein is often the cause of many of our troubles. We like to think we

The eyes use up a great deal of energy in the process of seeing, even under the best of conditions. In the presence of eyestrain, extra energy is used which is then not at the disposal of such other organs as may need it.

Nervousness, symptoms of indigestion, and the process of becoming sick, and nausea are some of the symptoms commonly produced by eyestrain. The eyes use a larger share of energy than should be allotted to them.

Many patients complain of the eyes tired, which is often

with perfect eyes, but on account of fact it is likely that the eyes are perfectly formed caused too much strain while trying to see things in the distance, nearsightedness, farsightedness, astigmatism, the patient is using enormous amount of energy in the process of seeing. The substantial reward came when the prize money was divided. While Captain Greer was made a baronet and given 153,000 and a pension of 11,000 a year, young Steele was given 15,000, as were the other midshipmen.

The reward was the nucleus of a fortune which was devoted in 1832 by Captain Elmes Steele, as he had then become, to coming to Canada and taking up land in Simcoe county. The captain was afterwards

Sure. He'll be delighted. He always is.

Time passed. Suddenly he began cursing and swearing furiously.

## Goldfields Man Has Most Northerly Fur Farm: Hopes For Big Increase

On Crackington Point, near the fish camp, 15 miles southwest of Goldfields, is located Saskatchewan's most northerly fur farm. It is a new mink ranch started by Len "Shorty" Bagshaw, veteran northwesterner.

Last year Shorty fur a dozen mink from Alex Strathmore's fur farm at Lac La Poudre in Crackington and today has 46 despite the fact that five died. This winter Shorty will kill and sell 12 bushels, the first returns from the enterprise. All mink will be kept for breeding stock.

**BIG INCREASE**  
Under average conditions Shorty expects to have an increase of 120 next spring and will then be well established in the business. That mink are great producers is indicated by a ranch at Cold Lake which was started in 1927 with three animals and now contains 500 and many males have been sold during the intervening years.

Shorty Bagshaw is a 36-year-old man. He came to Canada in 1913 and for several years worked for the Great West Sashery in Winnipeg and later at Calgary. Shorty came north to Lake Athabasca in 1927 as an employee of McIntyre Products Corporation. During the fishing season, which is confined to July, August and September, he built fish boxes and during the winter he trapped.

Finishing trapping a hard game for a man nearing the three score mark, Shorty looked about for something which might keep him down north. He decided upon mink ranching. He is still building fish boxes for McIntyre but his winters are now taken up caring for his mink.

It is quite probable that other trappers getting about 7 years will be following Shorty's lead. His ranch will be able to provide cultivated stock for several Athabasca mink ranches.

## "... of a Bicycle Built for Two"

In these days of conservation of resources in most European countries, a bicycle built for two is coming into its own. The use of motor cars is considerably curtailed in Italy. This is the bride and groom at a wedding party leaving St. Peter's cathedral in Rome, the bride and groom leading, and the rest of the wedding party following, all using bicycles.

## Wireless, Patrol Boats Direct Allied Shipping Across Atlantic Ocean

Raising A Family

By Jerry Brondfield

My MRS. GAYNOR MADDOX has news for apple maniacs. This year there will be big supplies of the apples, especially those that are good for eating. Red apples, green apples and also have been fairly low. Red or green, striped or blushed, an apple is a worthwhile bit of nourishment.

Deals with the skin on, it helps to keep the digestive tract in normal health. Also, a good deal of the mineral content of the apple is near the skin. Apples contribute small amounts of vitamins, C, B and G. These contribute, especially of vitamin C, take on importance when the apple is a frequent item in the diet.

LITTLE COOKING

Water needed. Most important thing to remember in cooking apples is to be sparing with water, and the fruit is over 4-5 water and much of this cooks out. The only enough water is to splash water on the fruit and without scrubbing. Put just enough of baked apples to keep them from sticking to the pan. The more in scalded apples, pie or apple brown.

Something special: cover apple pie with Canadian maple syrup to thin slices or grate, and put in a very moderate oven until the apples are soft. It should be served either baked or cold, but it should be served as soon as it comes out. Crackers sprinkled with grated cheese or butter.

Dorothy Dix Says: Glamor Girls Strive For Greater Beauty

By ALICIA HART

Even modest girls who have to get up at six o'clock, have to work at playing sportfully attractive. They like Mrs. Averag, known, know very well that preservation of their looks means constant and earnest attention to simple beauty routines.

Each of the better known models appears to have worked out a system whereby she can keep her figure trim, hair glossy, skin clear and her face as lovely in a minimum of time.

For instance, she particularly heads off a day and night, she walks around her room on tip-toes ten minutes a day and so on. In the morning, she walks around her room on tip-toes ten minutes a day and so on.

# PAL ROBE REGAINS CONFERENCE SCORING LEAD

## Public Schools Finish Track and Field Meets

WITH weather moderating, the annual public schools track and field meet was completed Tuesday afternoon with the north and east district of the city in action.

This winds up a comprehensive competition in which hundreds of public school pupils competed as individuals in classes that matched them as evenly as possible. Total points won by each school were not tabulated.

The mass of detail involved in moving the hundreds of youngsters to a central place for the competition, the control of them and the system by which the scores of events were run off smoothly on schedule were all worked out by A. S. Bird, physical supervisor of the public schools, and his committee drawn from the teachers.

Following are detailed results of Tuesday's meet:

## Big Bronk Ace Tops All By 13 Points

WINNIPEG, Oct. 18.—Paul Rowe, great plunging backfielder, who came to Calgary from Victoria by way of University of Oregon, has a 13-point lead on the field with 33 points in the Western Interprovincial Football Union individual scoring race.

Rowe, plugging for a touchdown and kicked a field goal at Regina, Saturday as Bronk lost to Regina, 13-11 to bring his amazing total in 10 games to eight touchdowns, one field goal and 33 points from placement.

ROWERS NEXT  
Andy Bronk of Winnipeg Blue Bombers was held scores last week but retained second place with 20 touchdowns for 40 points. Three other Bombers, Greg Kaitai, Wayne Shirley and Jeff Wicks, held the next three positions with 11 points each while Howard Edwards' two touchdowns for Regina Saturday gave him the sixth spot with 20.

Four Springfielders of Regina had a little bit of luck Sunday as they finished 10th Saturday as he placed all three touchdowns when Bombers beat Edmonton Eskimos 14-1. Harrison is tied at 20 with Bob Fyfe of the Winnipeg Blue Bombers, Lynn Warren, Calgary, has 15 points.
